Intel Corp is secretly working with the warden and FCI Williamsburg doctors to inject my brain with intel chips to watch GPS and monitor my thoughts and turn me into a human computer to data process prison torture. I was forced in handcuffs and blindfolds to make intel chips, Potato chips, chips Ahoy, and chips Patrol in a slave labor UNICOR federal prison industries program. This is 6 miles under the earth, Indiana Jones temple of doom with black inmates with whips and I escaped the cragful canyon mine but fell in a well with baby Jessica looking for the ring. Intel founder Groves Assulted me with a IBM after I met him on eharmony.com. I appeal this case
